

PROVE

VR Series Keypads

The VR43 & VR62 keypads are surface mount devices for high security indoor or outdoor applications. The VR series keypads are engineered for robustness and durability and boast strong vandal and weather resistance.

- ▶ In Presco mode the reader can be connected through low cost unshielded cable up to a kilometer away from the controller
- ▶ IP67 rated, robust saline mist resistant design
- ▶ Compatible with other non-standalone Prove peripherals as well as Presco and Prescient access controllers
- ▶ Audio and visual feedback for all inputs
